LES combustion model for turbulent hydrogen flames with thermodiffusive instabilities: A priori and a posteriori analysis

Wednesday, September 17, 2025 10:00 AM (1 hour)

Primary author: BERGER, Lukas (Institute for Combustion Technology, RWTH Aachen University)

Co-authors: ATTILLI, Antonio; PITSCH, Heinz (RWTH Aachen University); GAUDING, Michael (Institut für Technische Verbrennung, RWTH Aachen University)

Presenter: BERGER, Lukas (Institute for Combustion Technology, RWTH Aachen University)

Session Classification: Poster Session B

Track Classification: Mathematische Modellbildung und Methodenentwicklung
