

Training 3: Career planning

Thursday, 29 February 2024 14:00 (1h 30m)

This training is about all questions around the scientific career. Barbara Hammer, Eyke Hüllermeier, Gabriella Pasi and Monowar Bhuyan talk about their path to science and discuss with you what is important when embarking on this career. In an “Ask me Anything” session you’ll have the opportunity to ask anything you’ve always wanted to know about working in science. You are also welcome to submit a question anonymously in advance: <https://app.sli.do/event/oYQFQs9afD9QUtX6dbjHPt/live/questions>

Please note that the Training Session is open to PhD Students only.
